Calling all Students and staff: We will be collecting soda tabs to help defray the cost of a mother's stay in St. Louis while her child is having a bone marrow transplant. Collection jars are located in the guidance office, on the teacher's lunch table and on the school store ledge.

Think of all those gadgets you have with batteries. Multiply that number by our population and that's too many batteries ending up in our landfills and leaking into the environment. Science Club is now collecting spent batteries for recycling! Bring old batteries in and exchange them for Paw Prints! See Mr. Vallowe or Mr. Hall for details.
